Introduction

Qidian International 2020 Environmental, Social and Governance Report

INTRODUCTION

The Company has been listed on the Hong Kong Stock Exchange (stock code: 1280) since March 2010. Qidian International was founded in People's Republic of China (the "PRC" or "China") in February 2008 and is engaged in the businesses of sales of household appliances and retail of import merchandise, and is a leading retail chain company in the third and fourth-tier cities in east China.

Having been adhering to the view of making the world a better place because of us, the Group has taken the initiative to shoulder its social responsibility as a corporate citizen while realizing economic benefits. While it is selling and promoting the use of lowenergy environment-friendly products, it rewards and repays the society through continuing to promote the concept of sustainable development with stakeholders such as suppliers, customers and employees as well as practice public welfare actions.

In 2020, the Group actively responded to the national call. On the one hand, the Group diligently practiced the concept of comfortable home and promoted the sale of green and environmentally friendly home appliances, paying attention to the reduction of energy consumption of household appliances. On the other hand, under the trend of household appliances update and iteration, the Group actively introduced healthy and smart products, continuously optimized supply chain management, and reduced costs through use of multiple channels including online and offline channels, and emphasized on paying attention to improving the level of sustainable development of the Group.

At the same time, it has always been our belief that the key to the long-term success of the Group rests with training and management of outstanding talent, therefore, the Gruop attaches great importance to talent training and systematic management strategies. During the reporting period, we organized employees to participate in a number of related trainings to improve their working skills.

In preparing this report, the Company have compiled with the "Comply or Explain" provisions in accordance with the "ESG Reporting Guide" as set out in Appendix 27 to The Rules Governing the Listing of Securities of The Stock Exchange of Hong Kong Limited (the "Listing Rules") and the practical circumstances of the Company.

The Board acknowledges its responsibility for ensuring the integrity of the ESG report and to the best of its knowledge, this report addresses all material issues and fairly presents the ESG performance of the Company and its impact. The Board confirms that it has reviewed and approved this report.

Our Stakeholders

OUR STAKEHOLDERS

The Group communicates with stakeholders through various channels to understand their demands, being committed to promoting the sustainable development of the Group's business and operations.

Based on the business scope of the Group, the Group has identified its main stakeholders, which include investors/shareholders, the government and regulatory authorities, employees, suppliers, consumers and community residents. Employee health and safety, training and development	Investors/shareholders, employees, the government and regulatory authorities	To continuously promote the development and growth of employees; to provide a fair, competitive and highly transparent mechanism for reward and punishment; to pay attention to employees' health and provide them with a safe working environment.

ENVIRONMENTAL PROTECTION

As a representative of retail enterprises in third- and fourth-tier cities in east China, the Group regards energy conservation and environmental protection as its social responsibility. In terms of upstream suppliers, it has reached various strategic cooperation with them to guide green production and green consumption.

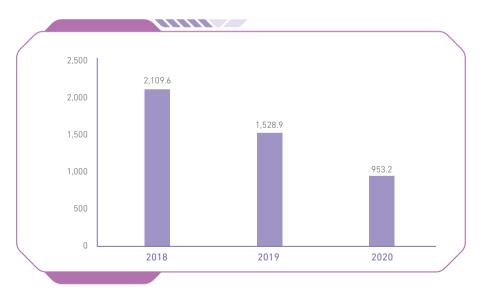

In terms of operation, the energy consumption of each store is supervised with the aim to promote green development in the whole process of operation. In terms of downstream consumers, through the transformation of store scenes and layout, users have been introduced into green living spaces and green low-energy products have been promoted. The concept of green consumption has also been promoted through changing users' consumption concepts, consumption methods and introducing low-energy consumer products.

A1 Emissions

The main business of the Group is to engage in the retail business of household appliances and import merchandise as well as the APP online sales of products in the PRC. Therefore, the Group does not directly generate emissions or pollutants due to production. In the course of business, the Group indirectly generated emissions due to the use of resources such as electricity and gasoline. However, the Group continues to focus on energy conservation and emission reduction. During the reporting period, the Group has been diminishing its resources consumption and carbon emission once again through a series of measures, such as smart logistics and the promotion of energy conservation and emission reduction.

In 2020, the carbon emission was 953.18 tonnes, which decreased 37.7% from 1,528.89 tonnes in 2019.

Indirect Carbon Emission (Tonnes)

A2, A3 Use of Resources

I. Energy Conservation

Electricity Saving

In order to reduce the electricity consumption and cost of electricity in the course of business, the Group continued to follow the policy of "energy conservation and emission reduction, with green operation", adopting the following control measures regarding the use of electricity:

- (1) Promote green lighting products on a large scale, existing stores and office lighting products are LED lights;
- (2) Promote and mainly use energy-saving lamps in the process of expansion and transformation of stores;
- (3) Strictly forbid the use of main lamps for lighting in the absence of important matters outside of working hours;
- (4) Strictly forbid the use of non-essential high-power consumption products at work; after work, turn off power- consuming equipment such as lights, water dispensers and printers.

In terms of electricity consumption in stores, the total electricity consumption by the Group was approximately 1,390,624 kWh during 2020, representing a significant decrease of 33.7% as compared to that of 2019.

Electricity Consumption

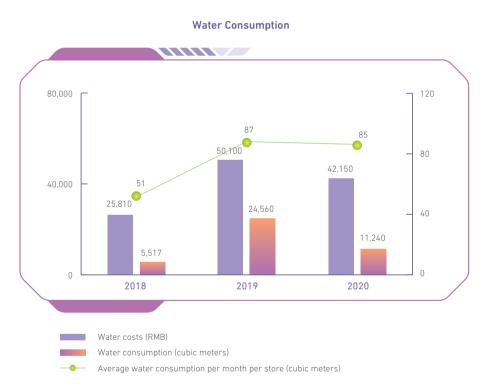

Water Saving

In addition to electricity, the Group also attached great importance to the management of water sources, especially in terms of water saving in stores. The main measures to save water were as follows:

- (1) Implement quota monitoring according to the size and number of employees of each store;
- (2) Strengthen daily inspections and supervision to prevent leakage, dripping and unintended flow of water;
- (3) Post "Water Conservation" and other promotional slogans in the washroom to enhance energy conservation awareness;
- (4) Replace all faucets in stores with induction faucets to implement water-saving measures.

Total water consumption of the Group was approximately 11,240 cubic meters during 2020, representing a significant decrease of 54.2% as compared to that of 2019. The Group did not encounter any issues in sourcing water which was fit for purpose during the reporting period.

Paper Saving

The Group mainly went through the following measures to save paper, to protect the environment.

- (1) Multiple measures to save paper including: (a) supporting front and back paper printing; and (b) setting up environmental protection paper box, giving priority to using the second environmental paper for printing.
- (2) Implement paperless operation on a large scale

Electronic coupon: For members or consumers of the Company, when the promotion is carried out during the holidays, electronic coupons will be issued through WeChat, WeChat Mall, Douyin and other APPs or small programs, or the accumulated bonus points can be used when products are purchased through the APPs or small programs so that the paper usage can be reduced.

Electronic invoice: The original paper invoice is replaced with an electronic invoice. The electronic invoice can not only be conveniently saved, but also facilitates inquiries and reimbursement, reducing the use of printed invoices.

Implementation of office automation system: The Group has currently implemented the OA (Office Automation) office automation system. At the same time, it upgraded financial NC management system, and added an integrated fund management and control system and a comprehensive budget management system. All contracts, bill payment, management processes, stamps, etc. will go paperless, minimizing paper waste.

Logistics Management

In 2020, the Group continued to optimize the logistics management system. On the one hand, it continued to vigorously develop smart logistics, rationally arranged and planned the logistics transportation route of delivery by installing GPS, reduced unnecessary driving and improved the delivery process and the customers' online shopping experience to the maximum extent. On the other hand, the logistics management of existing logistics networks, warehouses and distribution centers was optimized to cope with the growing business operations continuously.

At the same time, the Company has a vehicle use management system. In the case of non-urgent or important matters, means of public transportation may be used to handle the relevant matter to minimize fuel consumption and carbon emission of the Group's vehicles.

The total fuel consumption of the Group reached 65,988 liters in 2020, which was 24.9% lower than that of 2019.

1,000,000 936.177 900 000 800.000 700,000 548.095 600,000 500,000 386 276 400,000 300.000 200.000 132.007 87,829 65,988 100.000 0 2018 2019 2020 Fuel expense (RMB) Fuel usage (L)

Fuel Consumption

Packaging Materials

As the business nature of the Group is mainly the sales of products instead of the manufacturing of products, and does not involve the use of a large number of packaging materials, the Group does not have statistics on the packaging materials of the products sold.

II. Sale of Green Products

Sale of Energy-saving Products

Since the state issued the relevant opinions on promoting the update and upgrading consumption of household appliances products and encouraging residents to buy energy-saving smart household appliances products, as the leading retail enterprise in east China, the Group has been actively responding to national policies with practical actions to guide consumers to purchase energy-saving appliances such as TV sets, refrigerators, washing machines, air conditioners, water heaters, range hoods, and air purifiers that meet national quality standards in an inclusive manner. At the same time, the Group diligently practices the concept of comfortable home, promotes the energy-saving upgrade of the household appliance industry through promoting new generations of products, and selects home appliances, so as to encourage the promotion and application of energy-efficient products, driving the universal energy conservation and environmental protection.

EMPLOYEE CARE

The Group strictly abides by "the Labour Law of the PRC", "the Labour Contract Law of the PRC", "the Regulations on the Paid Annual Leave of Employees" and other laws and regulations to protect employees' legal rights and interests. The Company has established a fair and reasonable salary management system to ensure that employees receive fair and reasonable benefits and treatment, as well as recruitment, training, performance appraisal and other systems to ensure that all job seekers have equal opportunities to be hired by the Company and employees have access to training and continuously get promoted and grow through performance appraisal. Meanwhile, the Group pays attention to the construction of corporate culture, introducing ten rules for colleagues' mutual encouragement to create a harmonious and friendly working atmosphere. The Company pays attention to the career planning and development of employees, and conducts vocational training from time to time to help employees achieve their career goals.

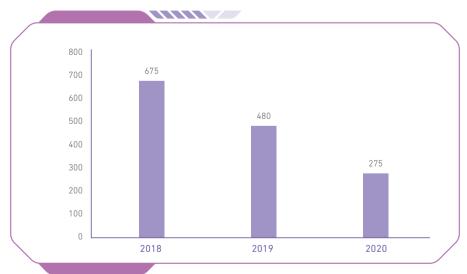

B1 Employment

I. Introduction of Talent

In terms of talent recruitment, the Group resolutely put an end to racial and gender discriminations, adheres to the principles of fairness, justice and openness, and offers promotions and salaries raises according to the employees' conduct, ability and performance. All employees' remuneration packages, working hours and holidays are in strict compliance with relevant laws and regulations and the Company's system. Each employee is treated equally without discrimination.

During the reporting period, the Group continued to sort out the functions, job requirements and KPIs of human resources. As of the end of the reporting period, the total number of employees in 2020 was 275, representing a decrease from 2019. At the same time, continued to pay attention to the introduction of employees from ethnic groups and the disabled, with a current proportion of 0.36%, which on one hand, made the Group's employment of talents more diversified, on the other hand, reflected the Group's good sense of social responsibility. During the reporting period, the Group made substantial business adjustments and optimization, and the staff turnover rate increased to a certain extent compared with 2019.

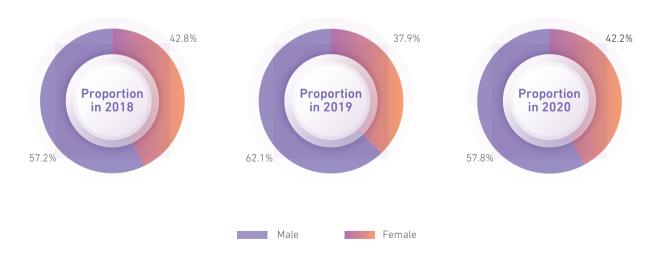

Total number of employees

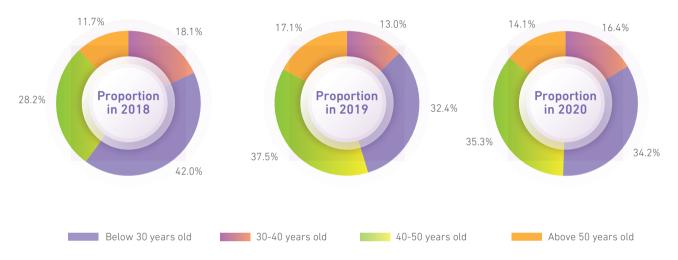

In terms of the type of employment, the employment type in 2020 remained diverse, with the ratio of full-time to temporary employees as follows.

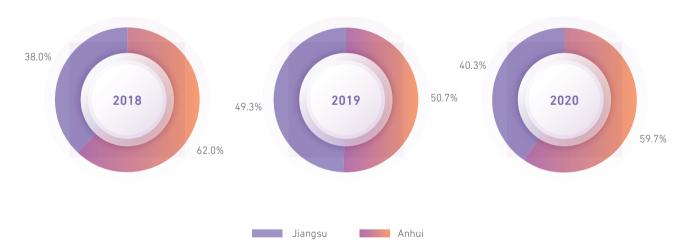

In terms of gender, the Group focused on gender balance, and the ratio of male to female members remained stable in 2020 as compared to 2019.

In terms of age, the Group continued to optimize the talent structure, the proportion of 30-50 year old talents in 2020 was basically unchanged from the previous year. Talents from such two age groups are characterized by stability equipped with richer experience in operation, management and marketing, which is conducive to the healthy and stable development of the Group.

In terms of geographical regions, the Group adjusted its strategy and carried out business integration, which increased the turnover rate of talents in Jiangsu and Anhui markets to varying degrees in 2020.

CLASSIFICATION CRITERIA	AVERAGE MONTHLY TURNOVER RATE (NOTE 1)	NUMBER OF EMPLOYEES WHO LEFT	
	GENDER		
MALE	2.4%	113	
FEMALE	2.8%	140	
	AGE		
BELOW 30	0.6%	21	
30-40	1.7%	71	
41-50	2.1%	93	
51 OR ABOVE	1.7%	68	
GEOGRAPHICAL REGION			
JIANGSU	3.0%	151	
ANHUI	2.3%	102	

Note 1: Average monthly turnover rate = number of resigned staff/(number of resigned staff + total number of employees)/12

Note 2: The Group's head office is located in Yangzhou City, Jiangsu Province

II. Employee Welfare

Legal welfare

The Group pays social insurance and housing provident fund for employees such as pension, unemployment, work injury, medical care, and childbirth in accordance with the Social Insurance Law of the People's Republic of China.

General welfare

The Group provides employees with work meal subsidies, communication fee subsidies, transportation subsidies and other benefits; provides annual body check welfare for all the employees at the end of the year; provides training for new recruits and currant employees to enhance their knowledge, skills and abilities, and lay the foundation for employees to achieve goals in career planning. In order to enrich the employees' cultural life in spare time, the Group also organizes various festival activities during the holidays to enhance the team building of the employees.

Special welfare

In addition to providing annual leave, marriage leave, sick leave, bereavement leave, maternity leave, work-related injury leave and breastfeeding leave in accordance with the Regulations on the Paid Annual Leave of Employees and the Holiday Measures on National New Year Festival and Memorial Days, the Company also provides special benefits such as travel for excellent employees with outstanding performance, as well as some office appliances such as special vehicles and laptops for some executives.

III. Promotion Of Employees

In terms of promotions of employees, the Group is in strict accordance with the principle of making the best use of employees' talents, fully explores their personal potential, and offers promotions according to their goals in career planning and their work performance evaluation, rather than relying on kinship or gender discrimination.

Through the promotion system established by the Company, each employee is given the same promotion opportunity, and each employee is scientifically evaluated and promoted to ensure that the employees on the Company's platform can make the best use of their personal value.

Regular promotion

Outstanding key employees and management cadres are selected through store appraisal, employee appraisal, and management cadre appraisal. The key employees and management cadres who continuously meet the appraisal standards and fulfil the promotion criteria will be placed on probation for the promotion and carry out trainee work in accordance with the standard of that position. After a period of time (generally three months), the employee who passes the assessment and fulfills the standard of the position will be promoted as the entry level management or middle and senior level management.

Exceptional promotion

In the rapid growth stage of the Company, a large number of middle- and high-level management cadres with professional ethics and leadership are required. Particularly active and outstanding employees who have made significant contributions in their positions can be recommended by the Company's leaders for exceptional promotions. Such exceptional promotions will be granted if after discussion, the senior management is of the view that the candidates possess key capabilities and skills required by that position.

B2 Health and Safety

I. Occupational Health

The Group cares deeply about the physical and mental health of its employees. On the one hand, the Group provides a safe and healthy work environment for its employees and provides employees with a good and comfortable work space to avoid work accidents or injuries. On the other hand, the Group organizes different forms of activities for the employees to release their mental stress to maintain their work-life balance and enrich their work.

Double Eleventh's Promotional Pep Rally in 2020

II. Occupational Safety

The Group conducts unified guidance and supervision of occupational safety with its "Safe Operation Standards" system in accordance with China's laws and regulations on occupational health and safety and industry standards. For example, the Company's service staff have to carry out safety inspections on users' power supply, earth wire, wire direction, water pipes, water valves, air valves, water pressure, air pressure, and so on during the provision of installation and maintenance services. In case of potential safety hazards, it is necessary for them to propose rectification advice in time so as to avoid accidents from happening.

During the reporting period, the Group did not have any work-related fatalities (2018 & 2019: nil), nor did it have any work-related injuries, while 2 people were injured due to work in 2019.

B3 Development and Training

I. Employee Development

As a leading enterprise in the retail industry in east China, the Group always attaches great importance to the training and development of talents. The Group has established a relatively complete training system and curriculum system, and has established long-term cooperative relationships with a number of high-quality enterprises. Courses include marketing, operation, finance, management and more.

Employee induction training

Each new employee of the Group is required to receive pre-employment training, and new recruits from all locations need to go to the headquarters to participate in unified training. The Human Resources Department will help employees understand the Company's development history, business composition, departmental composition, and future planning. On the other hand, employees will be informed of the Company's various management systems, requirements and specifications on dress code and etiquette, so as to enhance their sense of stewardship and service awareness.

All-staff training at stores

Further education and training at higher education institutions

In order to enhance the theoretical knowledge system of senior management and expand the circle of industry contacts, the Group will give core senior management the opportunity to study and obtain further education at higher education institutions such as Tsinghua University, Peking University or Cheung Kong Graduate School of Business. Through the research and learning of MBA and EMBA courses in the institutions of higher education, the management and decision-making abilities will be improved, and internal control system and external strategic expansion capabilities of the organization will be enhanced.

Performance improvement training

For each employee of the Group in their respective positions, in relation to business skills of the department and the Company's development needs, each department has to organize a study at least once every two weeks, and then check the learning achievements. The employees gain new knowledge by reviewing the old, consolidate the original knowledge structure while constantly absorbing new knowledge, and form a good way of thinking and behavior habit while improving business skills. In addition, the Company allocates members of the senior management to different stores with training. The training encourages and provides guidance to the employees to boost their work and improve work performance.

Corporate cooperation training

The Group pays attention to cooperation training with external manufacturers, and has conducted in-depth cooperation and exchanges with Siemens, AO Smith, LG, Sharp and other world-renowned enterprises on training. Such forms can not only enable Qidian International's employees to better understand the products they sell and improve their business quality and skills, but also strengthen the strategic partnership with such manufacturers. The experience of joint exchanges and training will make the future cooperation between Qidian International and the manufacturers more smooth and stable.

II. Talent Development Channels

The Group is concerned about the training and development of key employees at each level a lot, and has built a hierarchical talent training system. Through the matching of the Company's human resources strategic planning and employee career planning, promotion channels for management routes and technical routes are formed. Every employee of the Company has a clear career development goal to maximize the value of their life.

In terms of training by type of employees, it continuously focused on staff training in 2020, so that the training system for the senior, middle and entry level employees is more balanced.

Percentage of employees trained by type of employees

In terms of training by gender, in 2020, the proportion of female management receiving training was equal to that of male management, and the proportion of training also increased significantly.

120% 100.0% 100.0% 100% 80.0% 80% 60% 48.0% 42.3% 40% 27.8% 20% 2018 2019 2020 Male Management Female Management

Percentage of employees trained by gender

In terms of training by type of employees, the Company stepped up effort in training during the reporting period so as to ensure that employees from different levels acquire sufficient knowledge and work skills to increase the operation and work efficiency.

In terms of categorization by gender, the training hours for male and female managements become more balanced.

300 255 255 250 200 135 135 150 100 50 Ω 2018 2020 Male Management Female Management

Average training hours per employee by gender

B4 Labour Standards

I. Preventing Child Labour and Forced Labour

The Group strictly abides by the State Council Decree No. 364 Prohibition of the Use of Child Labour. It is necessary to check the identity card of the recruited person when recruiting personnel, and it is forbidden to recruit minors under the age of 16 and introduce employment for minors under 16. At the same time, the Group conducts training on relevant laws and regulations on human resources from time to time, strengthens legal awareness, and removes the possibility of recruiting child labour from the source of recruitment.

The Group strictly implements the Regulations on the Paid Annual Leave of Employee, advocates efficient work, and encourages employees to complete tasks during working hours. If there is a special need to work overtime, employees need to go through the overtime process, and after the approval of the superiors, employees can work overtime. After overtime, employees can take compensation leave based on the overtime hours. The Group is dedicated to putting an end to the unreasonable overtime work phenomenon.

During the reporting period, the Group did not have any cases of child labour and forced labour.

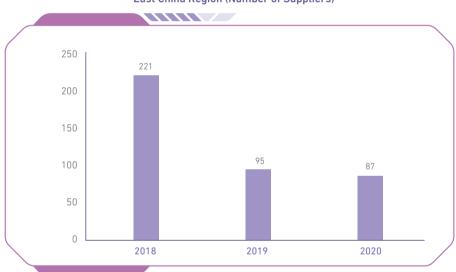

PRODUCT MANAGEMENT

The Group has always been committed to the construction of supply chain capabilities and continuous innovation. In the process of operation on the one hand, the Group strictly selects suppliers to ensure the quality of products and services sold, and on the other hand encourages suppliers to provide low-energy green product to contribute to energy conservation, emission reduction and environmental protection.

B5 Supply Chain Management

I. Screening of Suppliers

The Group follows the principles of openness, fairness and transparency in selecting suppliers, develops and implements procurement management manual, specifying procurement and bidding procedures and regulations, as well as supplier assessment and selection criteria to assess suppliers' performance in terms of price, quality, cost, freight and after-sales service. According to the material demand plan and the types of materials required of each department, the procurement of materials is generally carried out by means of price inquiry and comparison and sentinel procurement; the suppliers are selected through quality and price screening and evaluation of suppliers.

East China Region (Number of Suppliers)

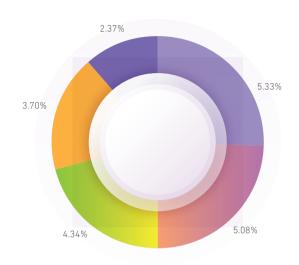

The Group's main market is in east China. Thus, in order to facilitate and speed up the supply of goods, supplier are mainly concentrated in east China. In order to improve the bargaining power for supplied products and to select the quality suppliers on a larger scale. During the reporting period, the Group effectively integrated the operation, marketing capabilities and management experiences of Anhui Four Seas Huiyin Household Appliances Sales Co., Ltd ("Anhui Four Seas"), a holding subsidiary, and strengthened the efficiency of negotiation and communication with suppliers, focusing on the selection of smart home appliances.

Note 3: East China Region mainly includes Jiangsu, Anhui and other areas.

In addition, in order to ensure the suppliers' ability in quality assurance, safety and other environmental management, the Group conducts on-site investigations of suppliers as needed, and conducts field surveys of their production capacity, technical level, quality assurance, supply capacity, and safety environment management qualification to ensure the quality and safety of supply chain.

The proportion of total procurement of top 5 suppliers of the Group (%)

B6 Product Responsibility

I. Quality Control

In accordance with the provisions of the Product Quality Law of the People's Republic of China, the Group establishes a check-foracceptance system while replenishing stock and strictly enforces it, and verifies the product qualification certificate and other marks to ensure the quality of the products sold; it is strictly forbidden to sell products which the government has ordered to phase out and stop selling, or any invalid or deteriorated products. The marks of the products sold shall be in compliance with the provisions of Article 27 of the Product Quality Law of the People's Republic of China. It is strictly forbidden to forge the place of origin, forge or fraudulently use the name and address of another person. It is strictly forbidden to forge or fraudulently use quality marks such as certification marks.

The Group has formulated the "Procurement Management System", "Inventory Management System", "Warehouse Stocktake System" and "Defective Products Management System" to check and manage product quality. All products sold shall not be counterfeit or of an inferior quality, so as to avoid any safety-related incident arising from product quality. During the reporting period, the Group did not have any product recalls.

The Group leads by example and always demands itself with the "quality first" standard. In terms of products sold, products from reputable brands such as Gree, Siemens, Haier and Midea were sold so as to contribute to the high living standard of local residents.

II. Advertising and Publicity

The Group strictly abides by the provisions of "the Advertising Law of the People's Republic of China" and acts in good faith and competes fairly in the process of engaging in advertising activities in compliance with laws and regulations.

The statements in relation to the performance, function, origin, use, quality, composition, price, producer, validity period, promise, etc. of the product or the content, provider, form, quality, price, promise, etc. of the service shall be accurate, clear and understandable. If the advertisement indicates that the products or services promoted are gifts, the variety, specification, quantity, duration and method of the attached products or services shall be clearly indicated. The content that should be clearly stated in the advertisement as required by the laws and administrative regulations shall be presented obviously and clearly. Through the above measures, the Group effectively safeguards the legitimate rights and interests of consumers.

III. Product Identification

The Group strictly abides by the provisions of Articles 27, 28, 30 and 31 of "the Product Quality Law of the People's Republic of China". The household appliances sold shall comply with the safety standards for household and similar electrical appliances, and shall be labeled in accordance with the provisions of the product standard GB 4706 series. The Group strictly abides by the relevant product labeling regulations, checks the products supplied by the suppliers through the inspection and acceptance system for incoming products and verifies the product qualification certificate to ensure the quality and safety of the products sold.

IV. Privacy Protection

The Group strictly abides by "the Law of the People's Republic of China on the Protection of Consumer Rights and Interests". When collecting and using consumers' personal information, it follows the principles of lawfulness, righteousness and necessity, and clearly states the purpose, manner and scope of collecting and using information, and obtains consent from consumers. The information shall not be collected or used in violation of the provisions of laws and regulations or the agreement of both parties. Consumers' personal information collected by the Company and its staff must be kept strictly confidential and must not be disclosed, sold or illegally provided to others. The Company will take technical measures and other necessary measures to ensure information security and prevent consumers' personal information from being leaked or lost. Remedial actions will be taken immediately in the event of occurrence or possible occurrence of information leakage or loss. Commercial information may not be sent to consumers without the consent or request of the consumers, or if the consumers expressly refuse.

V. After-Sales Guarantee

After-sales service

The Group has a professional after-sales service center and a after-sales personnel training center, as well as dozens of maintenance organizations designated by manufacturers. Through years of service experience, the Group provides professional service guarantee for consumers. In addition, the Group has established a logistics computer management network and a township logistics transfer station and a after-sales service station. The delivery cycle is shorter and the on-site service is faster, ensuring that customers can get a full and convenient after-sales service experience.

Complaint service

On the one hand, the Group will conduct telephone servings with customers who purchased our products to understand customers' experience with the products and solve the problems encountered by customers. On the other hand, the Group has a 24-hour service hotline to resolve complaints at any time. The Company has established a complaint handling team consisted of the customer service manager, business manager and vice president of business. In case of complaints, the customer service will refer it to the team in a timely manner. The complaint handling team will categorize the complaints based on its severity and provide individual reply and opinion concerning each complaint, while the customer service staff will take the initiative to inform the customer of the processing progress and properly compensate them. The Group has built an efficient, convenient and reliable service platform for consumers to solve various problems encountered by customers in a timely and efficient manner.

Integrity Culture

INTEGRITY CULTURE

B7 Anti-Corruption

Integrity culture is an important part of the Company's corporate culture, and the culture of honesty and altruism that is symbiotic with integrity is an important guarantee for the Company's sustainable and healthy development. Integrity is not only the foundation and ethical requirement for the Group's work, but also the responsibility and obligation of all employees.

I. Education on Integrity

The Group regards education on integrity as an important part of employee training. The Group educates employees to strictly abide by the Company Law of the People's Republic of China and avoid violating the Criminal Law of the People's Republic of China, and prohibits and eliminates bad behaviors such as bribery, extortion, fraud and money laundering. It uses cases of duty crimes to alert employees to ensure that the employees of the Group are honest and trustworthy and have good ethics and code of conduct.

II. Integrity Policy

The Group established "Anti-fraud and Whistleblowing Management System" to monitor the conduct and action of employees in daily operations. At the same time, such system is supplemented and updated annually according to the Company's adjustment of strategy and management philosophy. Through the annual self-reflection, the Group reviews the implementation of the code of ethics and related regulations to ensure that the code of ethics and related regulations are implemented in actual operations and management practices, and effectively eliminated bribery, extortion, fraud, money laundering, etc., to balance and maintain the interests of the Group and stakeholders and build long-term partnerships.

III. Measures Against Corruption

On the one hand, the Group engages an independent auditor to conduct an independent audit of the Group and prevents and controls the Group's corruption or unethical conduct through internal monitoring and independent audit. On the other hand, the Group provides an anti-fraud mailbox and an anti-fraud anonymous hotline to the internal and external parties of the Group, accepting complaints and whistleblowing from internal employees of the Group and related suppliers/agents/fixed customers of the Group with dedicated personnel to carry out proper recording and storage of the cases. The President's Office/Human Resources Department is responsible for the collection, analysis, transmission and exchange of all kinds of information related to anti-fraud. The findings of anti-fraud cases will be implemented, followed up, announced and filed. Anti-fraud work is regularly supervised by the risk management supervision team.

Complaints and whistleblowing will be handled depending on the position in the Group of the person being complained about or reported. Cases about employees from middle management or below will be investigated and handled directly by the Group's office/ Human Resources Department and punished upon approval from the Group's anti-fraud team. Cases about those from middle or higher management will be investigated and handled directly by the Group's anti-fraud team and punished upon approval from the Group's senior management. The Group shall keep any complaints or whistleblowing confidential to prevent the personal interest and benefit of complainants or whistleblowers from being compromised.

From 1 January 2020 and up to the date of this report, the Company was not involved in any corruption cases concerning its employees or the Company.

COMMUNITY PUBLIC WELFARE

As a leading retail chain company in the third- and fourth-tier cities in east China, over the years, the Group has adhered to the original mission of public welfare, persisted in practicing public welfare activities, solved the employment of local residents, paid taxes in accordance with the law, and assumed the social responsibility of corporate citizenship. At the same time, as a leading enterprise in east China, the Group takes advantage of its own brand to actively participate in the organization of various public welfare activities and becomes the driving force to promote the continuous progress of social public welfare.

B8 Community Investment

I. Community Services

The Group values the establishment of a harmonious and inclusive corporate and community relationship with the communities of the areas in which it operates, and actively participates in community activities to understand community needs.

The charity organization with Anhui Four Seas as its main member has been visiting Kongdian No.1 Nursing Home for the Aging for several years since 2009. The volunteers sent all kinds of materials to the elderly according to their life needs, and also gave them haircuts, blood pressure measurement, blood sugar measurement, cleaning, and theatrical performances, which brought warmth and blessings to the elderly. They have always been devoted to public welfare. With their kindness, love and perseverance, they have brought material comfort and spiritual warmth to the elderly.

II. Community Development

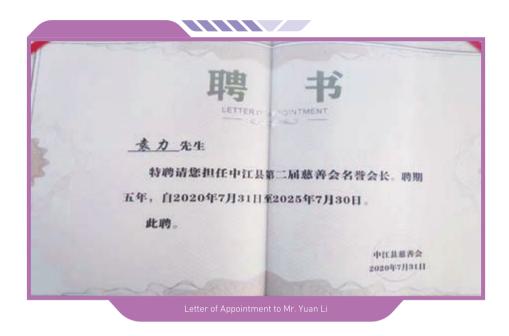

The Group entered the community together with the "Learning to Strengthen China" platform. On the one hand, the Group learned hot spots of the news and national policies and trends with the community people, and on the other hand, it closely popularized and promoted the knowledge of the use of energy-saving and environmental friendly home appliances.

The Group and the "Learning to Strengthen China" Platform to Send Warm Winter Gifts' Activities

Mr. Yuan Li (Yuan Boxian), Chairman of the Board of Qidian International, actively participated in various important activities and public welfare in China and the society, actively responded to the call of the state, and learned about the policy trends of the country in real time, also actively participated in various public welfare activities, contributed to the promotion of local and national economic development, as well as full employment.

On July 31, 2020, Chairman Yuan Li was appointed as the Honorary President of the 2nd Charity Association in Zhongjiang County, Deyang City, Sichuan Province. The Honorary President is a lofty honor awarded by Zhongjiang County Charity Association of Deyang City to those who have made significant contributions to the philanthropy of Zhongjiang County, which is also a high recognition of Chairman Yuan Li 's devotion to public welfare and charity over the years.

III. Community Employment

As a leading retail chain company in the third- and fourth-tier cities in east China, the Group continues to provide local employment opportunities while meeting the needs of consumption upgrading in the sinking market. In the future, with the expansion of new retail businesses, the Group will continue to increase its efforts in recruitment and contribute to community employment.

IV. Public Welfare Activities

The Group adheres to the principle of public welfare, and has always taken the practice of charity and public welfare as an important corporate culture. Actively fulfilling social responsibilities while developing rapidly, at the same time, employees are encouraged to take an active part in various public welfare undertakings, so as to actively return to the society and provide more help to the public while the enterprise gains profits.

On November 10, 2020, the signing ceremony of the special training for improving autism diagnosis and treatment capacity of "Start Star Project -- Care for Autism Children Action" co-sponsored by Peking University Sixth Hospital, Women Mayors Branch of China Association of Mayors and AiEr Charity Foundation was held in China Mayor Mansion.

Mr. Yuan Li, Chairman of the board of directors of Qidian International, attended the signing ceremony in the name of vice president of AiEr Foundation.

Signing Ceremony of the Special Training of "Start Star Project -- Care for Autism Children Action

The cooperation will aim to comprehensively improve the screening and diagnosis rate of children with autism and establish a sound autism assessment system. At the same time, it will further strengthen the construction of local autism disciplines and personnel training, lead public welfare with expertise, innovate public welfare models, and create a better environment for children with autism.

As the Chairman of the board of directors of the Group and vice president of Beijing AiEr Foundation, Chairman Yuan Li actively carries out various public welfare activities, leads the Group to actively fulfill social responsibilities, and explains the responsibility of private enterprises in the new era with practical actions.

Conclusion

CONCLUSION

The environmental, social and corporate governance report is an important manifestation of corporate governance. The Group has consistently adhered to the sound principles of environmental protection, social responsibility and corporate governance, continuously improved long-term returns for investors, and promoted the harmonious and healthy development of capital markets and the Group's operation. During the reporting period, the Group continued to improve the internal control system of the company, and increased the training and guidance of the employees on the internal control system. At the same time, the Company actively fulfilled its social responsibilities, paid attention to the balance of interests among the company and stakeholders, shareholders, employees, customers, suppliers and the community, and promoted environmental protection as well as social welfare activities. On the whole, the corporate governance has reached a new height compared with last year.

In view of the fact that the revised Environmental, Social and Governance Reporting Guideline will come into force on 1 July 2020, the Group will continue to improve the quality of corporate governance and contribute more to the community and the country by focusing on the application of "materiality", "quantitative" and "consistency" of the reporting principles under the new reporting quidelines.
